

G355 DECT Handset

Professional voice communications for mobile office users.

The DECT handset G355 is a wireless office handset for use in professional environments, providing the mobile user the optimum in mobility, accessibility, flexibility and comfort.

At a glance

- Appealing design, easy and intuitive use
- Easier to access phone book contents
- Flexibility, comfort and mobility for the user
- Increased accessibility
- More control over calls
- Reduced maintenance and service costs
- A simple, secure, feature rich solution

The DECT handset G355 brings mobile communication to a higher level:

- An appealing design and intuitive user interface
- Colour display and icon-based menu for ease of use
- Scratch-protected user design
- Provides valuable information to the user, including central directory access, personal phone book and calendar entries
- Enhanced comfort and flexibility through hands free operation and use with headset
- Gives users full control over their accessibility
- Provides many call control features seamlessly integrated with the PBX
- DECT compliance for high quality speech and security
- Is easy to service and maintain

The DECT handset G355 satisfies advanced requirements for mobile voice communication in a business environment, providing mobility, flexibility and accessibility, without compromising on comfort and ease of use.

The charger rack is suitable for table-top usage or wall mounting
